SECTION M – SPECIAL CONDITIONS AND PROVISIONS

1. **AWARD AND EXECUTION OF CONTRACT:** Addendum to Section 103.

Add Section 103.9 Contract Time and Inclement Weather: Time will be charged for all calendar days regardless of weather conditions.

2. **TIME EXTENSIONS FOR UNUSUALLY SEVERE WEATHER:** This provision specifies the procedure for the determination of time extensions for unusually severe weather. The listing below defines adverse weather days to be anticipated monthly. An adverse weather day is defined as being caused by any weather which caused or would have caused the progression of work to be halted for no less than half of one typical working day. The listing is based upon data from the National Oceanographic & Atmospheric Administration (NOAA) or similar data.

MONTHLY ANTICIPATED ADVERSE WEATHER CALENDAR DAYS:

JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
13	12	12	9	10	10	9	10	7	8	10	12

The above schedule of anticipated adverse weather will constitute the baseline for monthly (or portion thereof) weather time evaluations. Upon acknowledgment of the Notice to Proceed and continuing throughout the contract on a monthly basis, actual adverse weather days will be recorded on a calendar day basis (include weekends and holidays) and compared to the monthly anticipated adverse weather in the schedule above. The term “actual adverse weather days” shall include days impacted by actual adverse weather days.

The number of actual adverse weather days shall be calculated chronologically from the first to the last day in each month. Once the number of actual adverse weather days anticipated in the schedule above have occurred, the Engineer, upon the Contractor's written request, will examine any subsequently occurring adverse weather days to determine whether the Contractor is entitled to a time extension. The Contractor's written request must be received within seven (7) calendar days of the requested day. Before adverse weather entitlement is granted, the Contractor must demonstrate fifty percent or more of the individual workdays were affected by the subsequent adverse weather. The adverse weather must also delay work critical to the timely completion of the project. The Engineer will convert any delays meeting the above requirements to calendar days and issue a modification.

For all weather dependent activities, the Contractor's schedule must reflect the anticipated adverse weather delays noted above.

The following is considered as adverse weather: Weather of a nature where workers cannot perform work as scheduled or gain access to the work site (i.e. hurricane, tornado, high winds, floods, extremely cold weather, ice storm, sleet, heavy snowstorm, et cetera).

3. **WORK HOURS:** Standard construction work hours are between 7:00 AM and 6:00 PM Monday through Saturday. Standard inspection hours are between 8:00 AM and 5:00 PM Monday through Friday. Requests to work on Saturday shall be received in written form no later than the preceding Thursday by 12:00 p.m. Inspections performed on Saturdays or not within standard inspection hours will be billed to the contractor directly. Requests to work on any legal holiday shall be received in written form 48-hours prior to the listed holiday. Work on a Sunday or any legal holiday will be permitted only with written permission from the City of Melissa. If work suspends for more than two days, a written communication is required to notify the intent to resume work. The written communication
